

LAMONT-DOHERTY
EARTH OBSERVATORY

THE EARTH INSTITUTE AT COLUMBIA UNIVERSITY

Oceanography Faculty Position in
the Department of Earth & Environmental Sciences and
the Lamont-Doherty Earth Observatory of Columbia University

The Department of Earth and Environmental Sciences and the Lamont-Doherty Earth Observatory of Columbia University seek applicants for an Assistant Professor position in Oceanography. The successful applicant will have a deep understanding of the ocean, demonstrated familiarity with ocean observations, and strong interest in teaching. Involvement in field programs and research related to the climate system or to ocean biology and chemistry, would be a plus. The position provides opportunities for collaboration with Lamont-Doherty scientists engaged in a wide range of disciplinary and interdisciplinary research, including ocean and atmosphere dynamics, climate modeling, marine biology, biogeochemistry and paleoclimate.

Minimum requirements for the position are demonstrated scientific creativity, a Ph.D. in oceanography or related field, and capability to teach physical oceanography at the graduate level. Application review will commence March 5, 2008 and continue until the position is filled. Send applications to: POSearch@ldeo.columbia.edu. Include a statement of research and teaching objectives, names of referees and full curriculum vitae. Questions can be addressed to Prof. Arnold Gordon (agordon@ldeo.columbia.edu), Chair of the Search Committee.

Columbia University is an Equal Opportunity/Affirmative Action employer. Women and minorities are encouraged to apply.
